RE: Commercial Mobile Alert System Election – PS Docket No. 08-146

Dear Ms. Dortch:

AT&T Inc. (“AT&T”) submits this letter to clarify its September, 2008 “in-part” election regarding the transmission of emergency alerts to its subscribers through the Commercial Mobile Alert System (“CMAS”).<sup>1</sup>

When AT&T filed its original CMAS election letter in 2008, it explicitly excluded<sup>2</sup> CMAS coverage on its planned Long Term Evolution (LTE) networks due to ongoing work on finalizing standards for that technology.

AT&T today advises the Commission that it plans to deploy CMAS on its LTE networks by the end of 2013, subject to the same “in-part” election caveats in the September 8<sup>th</sup> letter regarding technological and market constraints outside of AT&T’s control for both handsets and wireless network elements.

As always, please let us know if you have any questions regarding this matter.

Sincerely,

/s/ Joseph P. Marx  
Assistant Vice President, AT&T Services Inc.

---

<sup>1</sup> AT&T’s September 8, 2008 letter to the Commission (“the September 8<sup>th</sup> letter”) is incorporated by reference and available at <http://apps.fcc.gov/ecfs/document/view?id=6520066011>. Except as stated explicitly in today’s letter, all other representations in the September 8<sup>th</sup> letter remain in effect.

<sup>2</sup> See paragraph 5, September, 2008 letter.
